# About E. A. Negri

E. A. Negri are privately controlled civil engineering contractors, mining and plant hire specialists and have been operating within the industry for the past ninety seven (97) years, since 1928.

E. A. Negri has been successfully completing all types of civil work projects, including bulk earthworks, road works, pavements, drainage and associated works. We also have the expertise to deliver the civil concrete works, foundations and detailed sensitive structures that hold multi-million dollar mechanical equipment in the production of Gas and Electricity.

Mortlake Power Station Project

# E. A. Negri

## Services

Count us in, for the delivery of a small excavation work, the successful completion of a multi-million dollar civil construction project or anything in between, and over \$1 billion projects. Our diverse range of services include:

## Preparation Works

- Site Preparation
- Bulk Earthworks
- Major Concrete Works

## Infrastructure

- Road Construction
- Road network Maintenance
- Airports
- Dams
- Wetlands
- Pipelines

## Oil and Gas

- Oil and Gas Plants
- Power Stations
- Switch Yards

## Mining

- Stripping overburden
- Excavation of valuable resources, such as Gold & Sand
- Land Re-establishment
- Highway relocation

## Construction experience – *93 years of Excellence since 1928*

### **BassGas Processing Facility: 2002 - 2003**

Civil Contractor for the construction of bulk earthworks, building platforms, associated drainage and roadways for the new \$600 million BassGas Project in collaboration with Clough Engineering

### **Rowville Terminal Station: 2005 - 2006**
