About

Hamilton Civil Plant Hire

In 2017, E. A. Negri Pty. Limited expanded into New Zealand and started trading as a local company as **Hamilton Civil Plant Hire Limited** working on New Zealand's premier highway project known as *Transmission Gully*. On this project Hamilton Civil became the key final pavements provider on the 27km project working both day and night shifts. After this project completed in early 2022, Hamilton Civil was awarded another major pavement project on the iconic NX2 project being a new 18km highway project north of Auckland.

Transmission Gully Project

Construction experience – *7 years of Excellence since 2017*

Transmission Gully Wellington: 2017 - 2023

Major Contractor in the supply of services for the 35km State Highway construction of the Transmission Gully project for the supply of a major pavement fleet of 14H/M series GPS graders and other Plant in collaboration with the CPB HEB Joint Venture. Anticipated end 2020.

How we care for our people and the environment

A close-up view of a construction site showing a large pile of dark, rich soil or mud. To the left, there is a lighter-colored area of gravel or crushed stone. The background shows more of the construction site with some vegetation.

Our vision and Aspiration commit us to working safely, creating a zero harm environment and responsible for the community and environment
